

## SINUMERIK 828D / 840D sl

# Operation and programming for milling with SINUMERIK Operate

CNC training for machine tool operators and users

### General Information

Length:	3 days
Dates:	December 11th to December 13th
Location:	Siemens Industry, Inc. 390 Kent Avenue Elk Grove Village, IL 60007
Registration:	<a href="http://www.usa.siemens.com/cnctraining">www.usa.siemens.com/cnctraining</a>
Capacity:	12 students
Cost:	There is no fee for the class. Participants are responsible for their own travel and living expenses. Lunch will be provided daily during the training. Each student will be provided with a complementary SINUTRAIN for SINUMERIK Operate at the end of the class.

### Content

- Operation of SINUMERIK 828D / 840D sl for milling
- ISO programming with SINUMERIK 828D / 840D sl for milling
- SINUMERIK 828D / 840D sl graphical programming for milling
- Practical exercises on training models

### Description / Objective

Familiarization with SINUMERIK 828D / 840D sl operation with SINUMERIK Operate HMI, as well as with the programming of part programs for milling applications.

Each student will be provided with a complementary SINUTRAIN for SINUMERIK Operate at the end of the class.

### Requirements

Basic knowledge of operation and programming of CNC systems is required.

### Target group

Machine tool OEM and dealer personnel, who provide support and training for programming and operating CNC milling machines utilizing the SINUMERIK Operate HMI.
