SITOP UPS1600  
starter package  
for just

**\$ 695**

## The first open and system-integrated DC UPS

Order your starter package and save over 10 percent!

[usa.siemens.com/sitop](http://usa.siemens.com/sitop)

Order now and get the favorably priced starter package for the new SITOP UPS1600 uninterruptible power supply – the first and currently the only fully system-integrated DC UPS. You'll receive both a DC UPS module and a suitable battery module, as well as comprehensive software and complete documentation for easy startup.

The package includes a pre-assembled Industrial Ethernet connecting cable to enable fast integration in your automation system.

How does SITOP UPS1600 benefit you? It lets you plan, configure, and monitor your DC UPS via the TIA Portal and is fast, simple, and fail-safe. The relevant files can be found on the CD included in the starter package.

You also benefit from the DC UPS's open communication standards: You can easily link the SITOP UPS1600 to automation computers via its two Ethernet/PROFINET interfaces.

And the convenient SITOP UPS Manager PC software included in the starter package allows you to easily configure and monitor the UPS1600 in PC-based systems.

Answers for industry.

# SITOP UPS1600 starter package – the first open and system-integrated DC UPS

Using the SITOP UPS1600 DC UPS module and a suitable SITOP UPS1100 battery module from the starter package, you can upgrade your SITOP 24 V power supply unit starting from 10 A rated output current to an uninterruptible power supply. SITOP UPS1600 intelligent battery management automatically detects the battery and selects optimal, temperature-controlled charging characteristics. It also monitors charge level, wire breakage, and fuse failure.

Open communication via Ethernet and TIA integration via PROFINET offer you unique possibilities for configuring, engineering, and diagnosing your power supply – including remote monitoring via the integrated web server. The starter package also provides you with the necessary software and connecting cable, thus giving you the perfect start!

## The starter package includes:

1. SITOP UPS1600 24 V/10 A DC UPS module with Ethernet/PROFINET interface  
Order No. 6EP4134-3AB00-2AY0  
List price: \$555.00
2. SITOP UPS1100 battery module, 24 V/3.2 Ah  
Order No. 6EP4133-0GB00-0AY0  
List price: \$182.00
3. Industrial Ethernet connecting cable with 2 x IE FC RJ45 plug 180, 2 m long  
Order No. 6XV1871-5BH20  
List price: \$61.00
